We want some Town Hall meetings, John. You owe it to ALL of your constituents to hear our views on pending legislation – not just those who are beholden to you and the rest of your “like-minded” colleagues.

There are two possibilities for why John Tierney is ignoring you and isn't holding any constituent Town Halls during the August recess – a.) he's afraid of what you might think about pending legislation (like health care reform), or b.) he doesn't care what you think. Chances are good it's option "B".

Let's make sure our "representative" can't ignore us. Call his office, and tell him to vote "NO" on government-run health care. We can't afford it and it takes away too many fundamental freedoms like choice and privacy.
